New Opportunity for Practical Learning

Life presents many difficult circumstances. The Bible assures Christians that God will not give anyone more than they can handle (1 Corinthians 10:13). While that may be easy to cognitively believe, an emotional understanding involves a good knowledge of the human design. God provides ways for dealing with difficulty even though we struggle to apply them.

Beginning this Wednesday (December 6) and going through February, a new class will be offered. The title of the class is Transforming Your Thinking: Biblical Patterns to Modify Thoughts. The class will combine biblical themes and current mental health research. According to Psalm 19, God has revealed Himself to man through natural revelation (the patterns which exist in the world) and special revelation (the Bible). Looking at themes from both will be the thrust of this class. Anyone who struggles with anything would benefit from this class (that's everyone, isn't it!). Dealing with thoughts that "just pop in my head" or constant negative thinking as well as ways to alleviate these ideas will be discussed in the class. Grief, habit change, thinking errors, and alternative behaviors will all be addressed.

During the present quarter, we have been conducting a class on the book of Psalms with a special emphasis on mental health and holistic wellness. Overall, the class has been well attended and, as per the response of attendees, very much needed. Based on some feedback from students in the class and some brief planning and prayer, we intend to take the class a different direction. The class will be more topical in nature and provide biblical examples of thinking errors, human habits (positive and negative), and godly solutions for challenges in life.

One of the most exciting aspects of the class is that it is designed to address real, personal needs. As we have talked with various members, the eldership, and the students in the present class, ideas have been presented which have shaped and will continue to shape the direction of the new class. Our approach this quarter will focus on practical application of God's principles. It is bound to be better if you are there! Join us in the elders' conference room starting December 6.

This Sunday, December 3, we will have an opportunity for follow-up with this year's visitors who have expressed that interest. If you would like to be involved, bring a sack lunch on Sunday and meet in the fellowship room after morning worship. See Kevin Moore with questions.
